Pringsewu, Lampung

Computer Science graduate with a strong focus on Data Science and Web Development. Experienced in building machine learning models for predictive analytics and developing modern web applications using Laravel, Tailwind CSS, and Flask. Skilled in Google Looker, Python, SQL, and PHP, with a solid understanding of statistics, data visualization, big data concepts, and web application architecture.

Work Experiences

Universitas Lampung - Bandar Lampung, Lampung <i>Teaching Assistant, Data Structures & Algorithms</i>	Feb 2024 - Jun 2024
Universitas Lampung - Bandar Lampung, Lampung <i>Teaching Assistant, Object-Oriented Programming</i>	Aug 2024 - Dec 2024
Universitas Lampung - Bandar Lampung, Lampung <i>Teaching Assistant, Artificial Intelligence</i>	Feb 2025 - Jun 2025
Universitas Lampung - Bandar Lampung, Lampung <i>Teaching Assistant, Declarative Programming</i>	Feb 2025 - Jun 2025
Pemerintahan Provinsi Lampung - Bandar Lampung, Lampung <i>Information Technology</i> Developed SIMAPIM (Leadership Agenda Management Information System) using Laravel 10 & Tailwind CSS, featuring agenda management, staff assignment, and document archiving to support the digitalization of leadership scheduling processes.	Jun 2025 - Aug 2025
Universitas Lampung - Bandar Lampung, Lampung <i>Teaching Assistant, Expert Systems</i>	Aug 2025 - Dec 2025
Bank Indonesia Kpw Lampung - Bandar Lampung, Lampung <i>Internship</i>	May 2026 - Jul 2026

Education Level

Universitas Lampung - Bandar Lampung, Lampung <i>Bachelor of Computer Science, 3.66/4.00</i>	Aug 2022 - Aug 2026
--	---------------------

Thesis Research

Performance Comparison of CoAtNet-0 and EfficientNet-B0 Architectures in Corn Leaf Disease Classification

- Compared two deep learning architectures for classifying corn leaf diseases into four classes using a dataset of 4,354 images
- Built EfficientNet-B0 via transfer learning with ImageNet pretrained weights, and CoAtNet-0 from scratch combining convolution and self-attention blocks
- Evaluated model performance using classification metrics (precision, recall, F1-score) and confusion matrix analysis
- Conducted an out-of-distribution robustness test using 1,143 irrelevant background images to assess real-world reliability
- Achieved 97.31% testing accuracy with EfficientNet-B0, outperforming CoAtNet-0 (94%), and recommended EfficientNet-B0 for real-world web/mobile deployment

Relevant Course

Machine Learning, Deep Learning, Data Mining, Database Management, Information Systems, Web Programming, Software Engineering, Probability and Statistics

Skills, Achievements & Other Experience

- Internship Certificate** 📄 (2026): Bank Indonesia Kpw Lampung
- EPT** 📄 (2026)
- Modules Taken** 📄 (2025): Asisten Dosen S1 Kecerdasan Buatan
- Modules Taken** 📄 (2025): Asisten Dosen S1 Pemrograman Deklaratif
- Modules Taken** 📄 (2025): Asisten Dosen S1 Sistem Pakar

- **Modules Taken** 📌 (2024): Asisten Dosen S1 Pemrograman Berbasis Objek
- **Modules Taken** 📌 (2024): Asisten Dosen S1 Struktur Data dan Algoritma
- **Achievements** 📌 (2023): (HINCAR) 2023
- **Achievements** 📌 (2023): AWARD of FINAL EXAM COMPLATION Java Foundation
- **Webinars Attended** 📌 (2025): Preparing Future Talents: Skills, Mindsets, and Strategies to Enter the Workforce
- **Webinars Attended** 📌 (2025): Pekan Ilmiah Nasional 10th 2025
- **Achievements** 📌 (2023): AWARD of COURSE COMPLETION Java Foundation
